SUMMARY

Data analyst, 3 years in retail and FMCG reporting. Most of my day is SQL and Power BI. Comfortable owning a dashboard end to end, from pulling the data to arguing with the commercial team about what the number actually means.

EXPERIENCE

Data Analyst - Alameda Retail Group (Mar 2024 - Present)

- Own the weekly commercial pack: 11 dashboards, ~40 internal users.
- Rewrote the stock-cover query that used to time out. Went from 6 minutes to 40 seconds, mostly by fixing a join that was fanning out on returns.
- Built the promo post-mortem template the category managers now use.
- Train new joiners on the warehouse schema. Nobody documented it before me.

Junior Data Analyst - Cairo Foods (Sep 2022 - Feb 2024)

- Daily and monthly sales reporting in Excel, then moved most of it to Power BI.
- Cleaned the customer master. About 12,000 duplicate records from three legacy systems.
- Supported the finance close with ad-hoc extracts.

Intern - Cairo Foods (Jul 2022 - Aug 2022)

- Data entry and validation for the supplier catalogue.

EDUCATION

BSc Statistics - Cairo University, 2022. Graduation project on demand forecasting for a small bakery chain, using SARIMA. Grade: Very Good.

SKILLS

SQL (advanced - window functions, CTEs, query tuning), Power BI / DAX, Excel (Power Query), Python (pandas, matplotlib - intermediate), Git basics, some Airflow exposure.

CERTIFICATIONS

Microsoft PL-300 Power BI Data Analyst (2024)

Google Data Analytics Certificate (2023)

LANGUAGES

Arabic (native), English (fluent)
