ABOUT ME

Product designer, 5 years. Fintech for the last three. I run the design system and I do my own research, which is not ideal but it is where we are.

EXPERIENCE

Senior Product Designer - Fawry Digital (Apr 2023 - Present)

- Redesigned the merchant onboarding flow. Drop-off between step 2 and 3 fell from 38% to 21% after we split the KYC upload into its own screen.
- Maintain the design system in Figma. 140+ components, used by 4 squads.
- Ran 22 moderated usability sessions last year, mostly in Arabic, mostly on WhatsApp video because merchants would not install anything.

Product Designer - Vodafone Egypt (Jan 2021 - Mar 2023)

- Worked on the self-service app. Bill payment and plan upgrade journeys.
- Accessibility audit and remediation for the Arabic RTL layouts.

EDUCATION

BA Graphic Design - Helwan University, Faculty of Applied Arts, 2020

TOOLS

Figma (expert), FigJam, Maze, Hotjar, Adobe Illustrator, After Effects (basic), HTML/CSS reading level, Notion
