Hiring Manager
Administrative Capital for Urban Development
New Administrative Capital, Egypt

Dear Hiring Manager,

I am writing to apply for the Data Analyst position advertised on your careers page last week. I graduated from Ain Shams University in 2024 with a degree in Economics and I have spent the last eighteen months doing reporting work for a mid-size distribution company.

What draws me to ACUD specifically is the scale of the data problem. A city being built from nothing generates a kind of dataset that does not exist anywhere else in Egypt, and I would very much like to work on it rather than on quarterly sales variance for the rest of my twenties.

I have attached my CV, which goes into more detail on the reporting stack I have used and the two dashboards I built end to end. I am available for an interview at any time and can start with two weeks notice.

Thank you for your consideration.

Yours sincerely,

Mariam Abdelaziz
